Re: Patent Application Serial Number 10/511,429 - Cable Organizer Cabinet

Dear Commissioner:

I have been advised by my Patent Application Lawyer that there is an office action for my patent application stated above. I believe that it must be challenged by April 4, 2007 in order to keep my application live. I am seeking an extension of this deadline.

I have temporarily run out of funds to pay my lawyer at present so he has refused to carry out any more actions on my behalf until I have the funds. I therefore respectfully request you extend my Patent Application Office Action Response for three months until I can afford to pay my lawyer to respond.

I have invested heavily in this patent application in the USA and other countries and do not wish to lose my potential USA Patent. It is Patent approved in Canada.

My previous address was 36 Slate Drive Hammonds Plains Nova Scotia Canada.

Please allow me this extension to formally respond to your office action.

Yours truly,

Edward Torrance
